

C Loops Practice Questions

Programming in C | Unit 2: Control Statements and Loops

Practice questions on for, while and do-while loops.

- Write a program to print the numbers 1 to 10 using a for loop.
- Write a program to find the sum of the digits of a number using a while loop.
- What is the difference between while and do-while? Give an example.
- Write a program to print the multiplication table of a number.
- Predict the output: `for (int i = 0; i < 3; i++) printf("%d ", i * i);`
